January 5th Inservice Day (No School for Students)
January 8th Students Return
January 12th Report Cards Go Home
January 15th M.L. King Holiday (No School)

Tips

Reading Tips

- ✎ Go ahead and read your child's favorite book for the 100th time! As you read, pause and ask your child about what is going on in the book.
- ✎ Connect what your child reads with what happens in life. If reading a book about animals, relate it to your last trip to the zoo.
- ✎ Read rhyming books. These help kids become sensitive to the sounds in words.

Thinking Outside The Box

Play "Solutions"

- ☺ This game helps kids realize how creativity solves problems. To play, pose a scenario where an important machine, appliance or vehicle stops working and ask your child or group to figure out alternatives. For instance, what would happen if every refrigerator stopped working?
- ☺ Make a running list of answers and explore the ramifications of each.
- ☺ Discuss why it would/wouldn't work.

teen number ACTIVITY MATS

Activity To Try

Make Your Own Teen Number Activity Mats

- ✎ Make your own teen number activity mats by using plain paper, paper plates, etc.
- ✎ You can use a pen or a black marker to write the numbers, make the lines, etc.
- ✎ You can laminate or put in a plastic page protector for your child to write on the mat with a dry erase marker. They can also use items to build the numbers (i.e counting bears, play dough, hole punch pieces, stickers).

- ✎ You can print them for free at <http://thestemlaboratory.com/teen-number-activity-mats/>
